

Physical Plant Department

Application Instruction:

The applicant should read the material in the current University Bulletin about the scholarship for which he/she is applying, and should make certain that the information required by the Prizes and Awards Committee is correct and complete and supplied in full. This includes data on need, scholarship (including academic status and grade point average), residence, and other considerations. When required, be sure to attach recommendations from faculty members and others. Application must be received on or before the deadline set by the Physical Plant Scholarship Committee.
